MADEL HARD TO DETAIN If Conductor Had Not Helped Mother, She'd Have Gone.

Brattleboro, Aug. 14.-By the combined efforts of Mrs. James Lealiy and a conductor of the Hoston & Maine railroad, Miss Mabel Leahy, the M-year-old daughter of Mrs. James Leahy, was prevented from starting on an excursion at therallroad station at Dummerston yesterdayafternoon. Up to two weeks ago Miss Leahy had been employed at the Brattleboro retreat for the insune and since that ime has been visiting her grandfather, Fred Laughton, in Dummerston.

In some way word reached her mother, who was working in Putney, that the daughter intended to leave the town and t was rumored that there was a man n the case who would meet the daughter at Brattlebero. The mother immediately boarded a train at Putney and started for Dummerston. Just as she was alight-Mr. and Mr. John Everts of Boston ing from the train she saw the daughter getting on. The heavy weight of the maternal hand fell violently upon the indutiful daughter and started to drag her from the train. The girl resisted and stated that she intended to go. The serrices of the conductor were sulfated and ie advised the daughter to accompany her mother. She refused and it was necessary for the conductor to unclasp ner hand from the entrance rall and assist in carrying the girl to the station platform where the train left her in

RESUME BY GOV. IDE OF ISLAND ELECTIONS.

Former Chief Executive of the Pullips pines Explains Conditions There is Interview for the Free Press.

St. Johnsbury Aug. 11. Ex-Gov. Henry 1. Title of the Philippine islands to pass I mg she month a his home in this place. and being most cordially greated by his felmile. A representative of the Free Press called on him yesterday and in response to a request for an interview upon the election in the Philippines ha gave the following interesting resume of

vinces of the Mands when 30 members Engone taking were chosen by all qualified to vote, These out the islands was very small. For in-

State's Atheney Bacon was notified and "The present population of the islands sedered an inquest to be held in order is 7.500.00 and before the American octhat Mr. Brooks, who is hearthroken at supation only between I and in per cent. showed that the total effeculation of the William Brooks leaves a wife and newspapers in the native languages and dial to was only 2422 copies. The press as in America was absolutely free, and yet the census at that time showed that there was but one publication, daily, weekly or monthly in any language to stied to each 160 inhabitants, while it the United States there is an average of one copy for each inhabitant. In 190 only one person out of every five over people in order to have any interest in politics must receive their knowledge either through the press or by crators, But the speakers reach only a few hungreat mass of the Filiperos have never been touched by any political agitation either written or speken. Hundreds of Mr. Davis was a weighed about 180 thousands had no real knowledge of the about 70 years old, and weighed about 180 situation or knew that an election was thousands had no real knowledge of the

AGITATORS ARE POLITICIANS. "Under these clearmatiness r

largely the aghetors and the few that car. reached by the press or public was ings. The eampoign rollies that were beld were smally attended and only by those most interested. It thus happened that the man most extreme in his designations and his fervid patriorism, so-called, got the applause by 'playing to the galleries.' majority of the members elected were elected on the plat-form of immediate Independence. Their platform was expressed by the Masoffa member, Dominador Gemez, who said n the campaign, 'I had real or live one our in poverty and hunger with index pendence than live a century in the mids of affluence and culture under the domination of a foreign power." Dr. Gomes s a man of unsavory reputation and one of the two members from Manila in the new assembly, though he may not get his sent as it will be contested on the ground of fraud and electioneering at the polls on

"The new assembly has the same power as the House of Representatives to the United States, while the commission has the same power as the American Senate. It will undoubtedly appear later that many of the men elected on the independent platform will prove to be conservative and they will endeavor to have the islands neutralized as was done in Europe after the Franco-Prussian war with Belgium, the Netherlands and Switzer nd.

"While it is undoubtedly a disuppointment that some blatant agreators should secure scats in the essembly, yet the result is not a great supprise to thosis familiar with the conditions in the lands. Judging from what I know of the members elected I think the assembly after some extreme resolutions upon the subject of independence will settle down to business and undertake to logislate for the best good of the islands as they understand it. There will be a great many conservative men in the assembly and their knowledge of local paffirs will prove most useful in legislation."

TEMPERATURE NORMAL.

No Unusual Features in New England Wenther Conditions.

Hoston, Aug. 14-The weekly bullerin of the New England section of the climatological service of the weather bureau says:

The average temperature for the week in nearly all parts of England was slightly higher than the average of the week ending August 5, and near the normal for the season. The highest tempera. ture generally occurred on the lith an the 12th, when it rose to near or slightly above 90 degrees in nearly all parts of New England. The night temperatures were seasonable, and for the section except in some localities in Maine, New Hampshire and Vermont, where a minimum temperature of 48 degrees occurred on the 6th and the 9th.

The precipitation was confined to scat-
